COMPUTERIZED ELECTRO DERMAL TESTING SCORES

45 - 55	Perfectly Tolerant
56 - 60	Mild Intolerance
61 - 65	Moderate Intolerance
66 - 100	Severe Intolerance

***** IMPORTANT *****

With regards to Computerized Electro Dermal Testing, foods not eaten for four to six months or more before this test may read more tolerant than they actually are, and when eaten, may cause a reaction.

***** IMPORTANT *****

It is recommended that you follow up your testing session with a licensed health care professional to interpret your Computerized Electro Dermal Testing results, and advise you accordingly. This sheet does not constitute an interpretation of the results.

***** IMPORTANT *****

**COMPUTERIZED ELECTRO DERMAL TESTING RESULTS OF ANY KIND
DO NOT CONSTITUTE NOR CLAIM TO BE A DIAGNOSIS.**
