---

- Web designer and developer with over 25 years of experience
  - UX development, building responsive, accessible front-ends
  - Writing technical documentation for other developers, maintainers, and clients
  - Collaboration, leading, and teaching developers
  - Delivering engaging conference workshops, training and tutorials
- 

### Crossroads Media / Senior Technical Manager

March 2019 - PRESENT, Burlington

I have spent the last year on the research & development team at Crossroads implementing various technical solutions to support other internal teams, and building websites in Webflow. This role requires a lot of leadership, emotional intelligence, and collaboration.

### Carpages.ca / Front-End Lead

April 2014 - March 2019, Mississauga

Crafted a new responsive platform for dealerships. Followed industry best-practices with a focus on scale, modularity, efficiency and process. Trained and led a team, grew the network from zero to hundreds of websites.

### Thrillworks / Designer, Lead Front-End Developer

February 2010 - April 2014, Burlington

Award-winning work for Fortune 500 companies. Led team in introduction to web standards, documentation, and responsive web design. During this period I also focused on writing for popular web journals like [CSS Tricks](#).

---

- Volunteer work for various international non-profits and Christian ministries including Operation World, and Joshua Project, and my home church Hope Bible Church Oakville
- Prototyping & experimentation
- Speed listening
- eBook authoring
